

Book a 15-min audit

● Active BPPE citation on public record

Cited by BPPE for incomplete student records? **Bella makes it the last time.**

Marcus, the next BPPE review will look at the same records. We make sure they're complete, signed, and dated before anyone asks.

Order #25260245 was a \$1,001 fine. A repeat finding is rarely just another \$1,001. It is heightened scrutiny on every enrollment file you hold.

See how it works

✓ No spreadsheets to send. A real compliance person walks your last review with you.

CITATION ON FILE

Bureau for Private Postsecondary Education

School

CR'U Institute of Cosmetology & Barbering

Order number

#25260245

Served

March 11, 2026

Administrative fine

\$1,001

Finding: incomplete student records. Failed to ensure all student records contain signed and dated documents and required data points.

⚠ Sourced from public BPPE enforcement records. Verify details against your own copy of the order.

THE REAL COST

It's not the fine.

It's the second look. A repeat records finding signals a pattern, and patterns invite deeper, slower reviews.

100%

of enrollment files Bella holds carry a live "complete / not complete" status, so a gap is fixed before a reviewer ever sees it.

<1 day

to produce a full, signed, dated record set for any student, instead of digging through binders and a shared drive.

HOW BELLA CLOSES THE GAP

An AI-first SIS that keeps every student record citation-ready, on its own.

Bella replaces FAME, Smart, and the spreadsheets in between. The difference: it actively watches your records the way a reviewer would, and flags what's missing before it becomes a finding.

1

Every required field, tracked

Enrollment agreements, signatures, dates, disclosures, attendance. Bella knows the exact data points BPPE and NACCAS expect in each file and marks any that are missing.

2

Gaps surface before reviews

Missing a signed page or a date on a student record? You get a clear task, not a citation. Records move to "complete" only when they actually are.

3

Reports generate themselves

Annual reports and School Performance Fact Sheets pull straight from your live data, so the numbers you file match the records on hand.

The compliance work that gets schools cited, handled.

✓ **Complete, signed & dated student records**

The exact gap behind Order #25260245, flagged the moment a required document or date is missing.

✓ **BPPE annual reports & Fact Sheets**

Generated from your real enrollment and completion data, not re-keyed by hand at deadline.

✓ **NACCAS accreditation & Title IV readiness**

Clean records and completion reporting are what keep accreditation, and federal aid eligibility, intact.

✓ **Clock-hour attendance, to the minute**

Accurate hours feed completion math, refund calculations, and the records reviewers actually pull.

● ● ● Bella · Student records, completeness

DA Davis, Andre, Barbering 1500

COMPLETE

PM Mendez, Priya, Cosmetology 1600

COMPLETE

RT Tran, Rosa, Esthetics 600

NEEDS DATE

JK Kim, Jordan, Barbering 1500

MISSING SIG

Illustrative view. Two files would have been findings in a review, caught here first.

WHY OPERATORS TRUST IT

“We weren't sloppy, we were buried. Bella was the first thing that told us a record was incomplete *before* the state did.”

School director, California barber college
